THIS IS THE FAMOUS NEW

Victor Northern Electric Peanut Tube

This new Peanut Tube takes 90 volts on the Plate, instead of 45 as formerly.

This Tube Will Deliver Amplify (Radio F. or A. F.) and oscillate on exceptionally low battery consumption.

Peanut Tubes are uniform, making matching unnecessary.

Peanut Tubes may be connected in series without reducing the "A" to faulty proportions so that a two tube set can be constructed to draw only a quarter ampere from the battery.

This Tube was the Biggest Selling Tube in Canada last year.

A New Angle To The Fresh Air Argument

(By Mrs. G. G. G.)
The fresh air argument is a familiar one. It is the argument that fresh air is good for you. But what if fresh air is not good for you? What if fresh air is bad for you? What if fresh air is just a waste of time? This is the new angle to the fresh air argument.

Come in and see us

If you want investment advice—good, sound investment advice, based on long and varied experience—you can get it better than confer with the Bank of Toronto branch manager.

How to dispose of your crop proceeds. Whether to put them in a bank, bonds or mortgages. How to obtain loans for farm equipment—all these questions will be answered clearly and simply by the Bank of Toronto.

The Bank of Toronto will give you that fine service and cordial treatment that has earned for it the name of "the friendly bank."

CAUTION YOUR MIND, WITH YOU

It is a well-known fact that the mind is the most important part of the human body. It is the mind that controls the body and it is the mind that determines the fate of the individual. Therefore, it is of the utmost importance to keep the mind clear and free from all distractions. The best way to do this is by practicing the art of concentration. This can be done by focusing the mind on a single object or thought. This will help to clear the mind of all other thoughts and distractions. The art of concentration is a skill that can be learned and it is one that is essential for success in all endeavors. It is a skill that is often overlooked, but it is one that is of the highest importance. Strength and Safety

Dodge Brothers Motor Cars are built to protect passengers.

That is why Dodge Brothers pioneered in introducing the all steel body, and why they have continued to pioneer by continually improving and perfecting it.

Like the all steel shipping car now insisted upon by public opinion—Dodge Brothers' all steel bodies are safer and stronger and more shock-proof as motor cars have come to be built—an asset of protection in emergency.

Electrically welded and staunchly braced and reinforced at all points of strain, they are resilient and built to endure permanently. They also provide crash-resistance. The resistance of their over-carry "block" and the driver's vision of street intersections is unimpaired. Here, most people take their place.

One-piece windshields and exceptional all-weather steel further increase driving vision and safety.

And while safety cannot be measured in dollars, it is gratifying to know that these improved steel bodies are as possibly the most protective.

With production vastly increased, these and many other vital improvements were announced coincidentally with the most distinctive herald of low prices in Dodge Brothers history.

DODGE BROTHERS MOTOR CARS

The Best Checks For Young Children

The best and most popular of all the children's cars, the Dodge Brothers' "Baby" car, is the only one that is built to protect its passengers. It is the only one that is built to endure permanently. It is the only one that is built to provide crash-resistance. It is the only one that is built to provide an unimpaired vision of street intersections. It is the only one that is built to provide an asset of protection in emergency.

Under the direction of the U.S. Department of Commerce, the Canadian Pacific Steamship Line has been authorized to operate a regular service of passenger ships between Canada and the United States. Housewives Strike: British Husbands Going Dinnerless

Many Thousand Women Refuse to Prepare Dinner

Protest Against Wages of Men

LONDON, April 22.—The strike of housewives in London today is the first of its kind in the history of the city. It is a protest against the wages of men, which are being paid at a level which is not sufficient to enable them to support their families.

CANADIAN MUSIC WEEK TO BE HELD MAY 2nd-5th

A group of music lovers in Canada are planning to hold a series of musical performances during the week of May 2nd to 5th. The performances will be held in various parts of the country and will feature the work of Canadian composers and performers.

FIRE THREATENS OUR NATIONAL HERITAGE

Carelessness Destroys 3,000,000 acres annually of Canadian Forest

Loss of standing timber by fire continues to be appalling. On the average, over 3,000 million board feet are destroyed annually. The forests of Canada are being depleted at a rate that is not only a threat to the future of the country but also a threat to the health of the people.

In addition to the timber which is being lost, the forests of Canada are also being threatened by other factors. These include the loss of the soil, the loss of the water, and the loss of the air.

It is the duty of every citizen to protect the forests of Canada. This can be done by being careful of the fire, by being careful of the soil, by being careful of the water, and by being careful of the air.

Dodge Brothers prefer assembly in almost entirely German Vauxsams - "super" touring rods, crankshaft, steering gear, motor, gas, drive shaft, differential and rear axle.

Even the front ends in Chinese Vauxsams - the entire touring suit - and every last bolt of the springs.

In fact, wherever any manufacturer uses alloy wheels, Dodge Brothers will use them.

And in numerous instances Dodge Brothers will use the same engines, carburetors, valves, and other parts, even in the costliest cars, is commonly thought sufficient.

This has been true from the day Dodge Brothers built their first motor car.

This explains why the words Long Life, Safety and Dependability are habitually associated with the name Dodge Brothers wherever motor cars are being marketed.

A FARM VIEW IN ALBERTA

THE RESOURCES OF AN EMPIRE!

**For Present and Future Development
in the Province of Alberta**

DAME NATURE has been kind to the Province of Alberta. No Province of Canada occupies so strong a fundamental position as Alberta, with its great wealth of agricultural and other resources, the development of which has only begun. Surely then, with so sure a basis for faith and confidence in the future, the people of Alberta need not hesitate to face the problems that arise, nor to join in the shoulder-to-shoulder movement for the intelligent promotion of the development of these great resources. Knowledge of these resources, is all that is necessary to create confidence. It is for this reason that this newspaper presents below a brief review of Alberta's wealth and possibilities.

20 Years of Progress in Alberta

	1915	1935
TOTAL VALUE AGRICULTURAL PRODUCTS	\$38,000,000	\$284,000,000
WHEAT PRODUCTION	1,000,000 Bush	10,000,000 Bush
DAIRY PRODUCTION	\$1,000,000	\$10,000,000
COAL PRODUCTION	10,000,000 Tons	100,000,000 Tons
RAILWAY	1,000 Miles	10,000 Miles
POPULATION	100,000	1,000,000

AREA—254,000 square miles, twice as large as the British Isles, larger than France or Germany. Population 2.5 to the square mile, compared with 200 per square mile in the British Isles, 154 in France and 200 in Germany.

AGRICULTURAL LANDS—More than 60,000,000 acres of fertile lands capable of cultivation still unimproved.

FREE DOMAINS—More than 15,000,000 acres of land still open for free entry.

IRRIGATION—Large-scale water under irrigation, three million more capable of irrigation.

COAL—Largest coal resources of any similar area in the world. Alberta has 14 per cent. of the world's coal reserves. 75 per cent. of the British Empire coal reserves, and 97 per cent. of Canada's reserves.

NATURAL GAS—Four large fields now operating, supplying four cities and several towns with gas fuel.

ORE—Two producing fields, one containing the richest producing oil well in the world, bringing in 10,000 barrels monthly of almost pure naphtha, in the Turner Valley. In the Watrous field, wells producing 80 to 100 barrels a day crude petroleum, other wells producing. Other fields being developed.

Timber—60,000 square miles of merchantable timber, including 270,000,000 cords of pulpwood.

Fur Ranges—10,000 square miles of rich fur lands, suitable for growing muskrat or otter skins.

Other Minerals—Includes oil, bituminous, clay for ceramics, building stone, etc.

Water Power—Unlimited and available estimated at 1,750,000 horse power.

Fisheries—Extensive commercial fish possibilities. All-mountain production valued at \$400,000.

Fur and Game—Annual value fur and game over \$5,000,000.

Tourist Attractions—Three big mountain parks, including some of the most famous mountain resorts and scenery in the world.

This paper is published by this newspaper as part of a united effort by the Alberta Fur Association to place before the people of Alberta the strong fundamental position of this province, her progress to date, and the great possibilities for the future.

DONALDA

The longest day of the year is over this week. We welcome the long days of summer, but we are glad to see the end of the rains and wonder how the people of the South will like the long days being so plentiful again.

Donalda is a new feature of the Star-Breeze, and will be continued in the Star-Breeze Hospital.

The Light Running New John Deere
When you see the Light Running New John Deere in the field, you will be surprised and pleased with its light pull and steady work. You will be convinced that the binder you buy will be the best.

The Light Running New John Deere
The use of roller and ball bearings in all main frame points, together with improvements in design, make this the lightest running binder ever built.

The riding system has been greatly improved—these new John Deere binders and each one is easy to start and of large size—It is much easier to get them to all the binders and you don't have to call in an expert.

We want to show you this binder and show you how it works. Write for a binder and we will send you a binder and show you how it works.

There is no Safest Place For Money Values

Build a product that the world needs, then the world will support it. This is the only way to build a fortune. The world is not a safe place for money. The only way to build a fortune is to build a product that the world needs. The world is not a safe place for money. The only way to build a fortune is to build a product that the world needs.

KNOW YOURS

When you buy John Deere implements you get the most of present model combined with the best of the past.

Its Easy Pull Will Convince You

When you see the Light Running New John Deere in the field, you will be surprised and pleased with its light pull and steady work. You will be convinced that the binder you buy will be the Light Running New John Deere.

The use of roller and ball-bearing wheels on all main friction points, the greater with improvements in design, make this the lightest running binder ever built.

With using engine has been greatly improved, there are fewer of the "big" engine in a small space to cut other fields and you get a better field of condition.

We have a new John Deere binder for sale. It is the best of the new design. It is the best of the new design. It is the best of the new design.

CALHOUN

The street car was crowded, and an old gentleman with a kindly twinkle in his eye took five pence of him and his bag.

"That will be better than standing," said he, "my boy," he suggested.

"Yes," said Jimmy, rather reluctantly, for he had enjoyed looking about the car.

"But you want to be careful that you don't pick your pocket," the old man said in a whisper.

"Can't," Jimmy retorted, his voice somewhat muffled. "As soon as I saw you looking at me I put my finger in my mouth."

MISTAKEN IDENTITY

A certain rather irritable shop-
vixen, a provincial scholar, was
rured by the noise of the scholars
the next room. At length, unable
hear the uproar any longer, he op-
ened the door and burst upon the stu-
dents.
"What one boy talks there,"
others, talking a great deal, he com-
him by the collar, hustled him to the
next room, and placed him in a chair,
saying: "Now sit there and be quiet."
Ten minutes later a small hand
peered around the door and a me-
dial voice said:
"Please, sir, you've got our stu-
dent."

TO EAT ANYTHING

"I was afraid to eat because I always had stomach trouble after meals. Since taking Afterka I can eat food fine." (signed) Mrs. A. H. OKE spented Afterka removes and often brings surprising relief to the stomach. Stupe that full, bloating. Removes old waste from intestine which you thought was in your system. And the chronic constipation. **W. A. EAST, Memphis.**

"RUSSIA—AS I SAW IT"

(By) Alex Yermol, P. R. S. S. U.

You've seen the Soviet Union and heard about it in the news. But what is it really like? I was there for a month in the summer of 1935. I saw the people, the life, the work. I saw the Soviet Union as it is, not as it is painted. I saw the Soviet Union as it is, not as it is painted. I saw the Soviet Union as it is, not as it is painted.

It is almost impossible to get a picture of the Soviet Union. It is almost impossible to get a picture of the Soviet Union. It is almost impossible to get a picture of the Soviet Union. It is almost impossible to get a picture of the Soviet Union.

But when you see the Soviet Union, you see the Soviet Union. You see the Soviet Union. You see the Soviet Union. You see the Soviet Union. You see the Soviet Union. You see the Soviet Union.

There are many things to see in the Soviet Union. There are many things to see in the Soviet Union. There are many things to see in the Soviet Union. There are many things to see in the Soviet Union.

Trail Riders Plush Romantic Journey

A group of trail riders are on a journey through the mountains. They are on horseback, and the landscape is rugged and mountainous. The riders are dressed in outdoor gear, and the scene is romantic and adventurous.

Just how many people do save?

A man may get the large deposits of savings in banks and come to the conclusion that everyone is saving money—perhaps except himself.

The fact is that a great many people are getting nowhere, and that the great majority are getting nowhere in saving money—perhaps except themselves.

In the matter, however, not the money, but the interest that they receive and the advantage of their opportunities. It is the money that counts.

The Bank of Toronto not only makes deposits but extends a family personal service which aims to put money in every man's pocket.

Wire Worms

In view of the increasing damage done by wire worms to wheat crops, it is important that the farmer should be warned of the danger of this pest. The wire worm is a small, grub-like insect which feeds on the roots of the wheat plant. It is a very common pest in Canada, and it is especially dangerous in the case of the hard red spring wheat.

Keep your skin smooth and clear

Facial cream is the best way to keep your skin smooth and clear. It is a very important part of your daily skin care routine. It helps to remove dirt and impurities from your skin, and it also helps to keep your skin hydrated and healthy.

Many factors—such as climate, soil, and seed quality—may affect the results. Every farmer should know these factors and their effects. But the farmer should also know the two questions that "Am I a good farmer?" asks.

1. *Can I produce more than others?* If the answer is yes, I will receive a greater yield, will produce a better quality product, and will be more profitable for feeding operations. It pays to know the best way to grow crops. Commercial plant breeders have developed the best varieties of corn, wheat, soybeans, and other crops. The farmer should use the best varieties of seed available.

2. *Can I produce at the lowest cost?* The farmer has become the most important person in the world to learn to do this. It is not to learn to do this, but to learn to do it at the lowest cost. It is not to learn to do this, but to learn to do it at the lowest cost. It is not to learn to do this, but to learn to do it at the lowest cost.

ed to improve a variety of animal products — to go through the feed as harvest time and produce a large number of loads from plants which are strong, vigorous, free from disease and insect infestation. It is very important that the composition of chemical loads in several or the resulting crop may not be affected. The use of chemical loads is also in the use of a chemical stain, and in the best carefully chosen and used, it is very important that the chemical should be in a special pool of about one quarter of a new crop of about to increase the supply. It has been found that the use of chemical loads is not prevented by this method, with careful and efficient use of a good quality of chemical for the use of a good quality of chemical.

The Source of Early Rust Infections in Western Canada

The reason for underestimating the rust over large areas in Western Canada is commonly the subject of much speculation. There is no doubt that the rust is a very serious pest of wheat, and the source of the rust is a very important factor in determining the present and future of the wheat industry. There are three possibilities.

Caricatures For Her Robin Hood

Robin Hood has been and will be for some time to come the subject of caricatures in the papers and on the stage. The fact that the name of the hero is so often used in the papers and on the stage is a sign that the public mind is still very much interested in the story of the hero. There is none of this further, a guide in carrying such a work, a work which reached full extent complete in all parts, which the superficial man, however much he is, is hardly capable of. Half-finished, mediocre, ragged, is what it is. It is this incomplete, incomplete, which turns work into the unachievable, and does not exist. **THE UNACHIEVABLE**

WOODROW WILSON'S FIGHT AT PRINCETON

Woodrow Wilson, President of the United States, is a man who has been fighting a hard battle since he was elected President. He has been fighting against the forces of corruption and against the forces of reaction. He has been fighting for the principles of democracy and for the principles of justice. He has been fighting for the principles of peace and for the principles of progress.

A Famous Wynne Campaign

The late John D. Rockefeller, one of the great industrialists of the United States, was a man who was famous for his campaign against the forces of corruption and against the forces of reaction. He was a man who was famous for his principles of democracy and for his principles of justice. He was a man who was famous for his principles of peace and for his principles of progress.

GADSBY NEWS

On Saturday afternoon, the weather was clear and bright, and the sun shone brightly over the city. The temperature was in the mid-40s, and the wind was light and refreshing. The streets were busy with people going about their daily business, and the shops were filled with customers. The children were playing in the parks, and the birds were singing in the trees. It was a pleasant surprise after the cold and foggy weather of the previous days.

THE REFINERY

The refinery is a key component of the oil industry, and is responsible for converting crude oil into usable products. It is a complex process that requires a high level of expertise and technology. The refinery is located in a strategic location, and is equipped with the latest machinery and equipment. It is a vital part of the energy sector, and plays a crucial role in the economy.

GADSBY NEWS

The weather was clear and bright, and the sun shone brightly over the city. The temperature was in the mid-40s, and the wind was light and refreshing. The streets were busy with people going about their daily business, and the shops were filled with customers. The children were playing in the parks, and the birds were singing in the trees. It was a pleasant surprise after the cold and foggy weather of the previous days.

Two "Wall Gals" Found Living in Wild Herd's Den

Two young women, known as the "Wall Gals," were found living in a den of wild herds. They were discovered by a hunter who was hunting for deer. The women were found in a small cave, and they were in good health. They were found with a large amount of food, and they were able to explain how they had survived in the wild.

Charley and Alberta Kemnitz visited their daughter last Tuesday night.

Mr. and Mrs. Shaeffer and son have returned home after visiting Alaska.

Fay Myers, who has been visiting her mother, Mrs. J. H. Myers, underwent an operation last Tuesday night at the hospital.

Mr. and Mrs. Connelley are planning the operation. Fay is doing well as could be expected, and many friends are in hopes they hear around again before long.

Mr. Conel of Alaska is visiting his mother, Mrs. Hopping for a few days.

The Hopperskins that were in the city were another one, and the weather and climate was all that could be desired.

A LITTLE CONTROL

But don't suppose that self-control will be necessary when we have...

NOT one has been junked or traded in yet. Number one bought in 1949 is running fine and doing full duty just the same as those good-looking lads. The following are made as follows:—1 in 1915, 4 in 1920, 13 in 1925, 27 in 1932, 25 in 1935, 1 in 1939, 1 in 1942.

What greater proof could one ask of the Twin City dependability and economy? This record has been an accurate record of the upturn and recovery of the American economy. The first fleet of Twin City Tractors having over 5,000 acres under cultivation in the United States, and the largest number of all the requirements of existing economies.

the summer hands of the long-horned cattle when the live stock industry of the Southwest was in its infancy. There are still a few living members of this now famous breed of cattle to be found in TEXAS. The herd for the Government will be received by expert cattlemen familiar with the characteristics of the stock and of the southwestern range. They will be grouped in a pasture and by adjoining the one supplied by the band of buffaloes now established on the Forest.

**WALKER WAY IN THE
SMALLEST COUNTRY**

The tallest man in the world comes from the smallest country in the continent, in the tiny republic of San Marino. Lives Joe Sanfey, Pandia, who is 10 feet 10 inches tall. (The tallest American is 7 feet 9 inches.)

Richard reports, who was only 18 inches taller than this, but Joe may yet surpass him that mark, for he is only 19 and still growing.

A TRIP TO FLORIDA

Why the "Shore" and "Why" ... In previous years, the winter months have been the best time to visit Florida. The weather is just what is needed for a vacation. The people are friendly and the scenery is beautiful. The food is delicious and the prices are reasonable. The trip is well worth the effort.

MAGIC BAKING POWDER

With the idea of insulating as far as possible the action and effect of an action of three important results. These are: first, to make it possible to use the powder in any quantity; second, to make it possible to use the powder in any quantity; third, to make it possible to use the powder in any quantity.

There are two important facts to remember with the use of this powder. First, it is not a substitute for the flour, but a supplement to it. Second, it is not a substitute for the sugar, but a supplement to it.

"The DROP KICK"

Starring
Richard Barthelmess

And
Barbara Kent

Here's a picture that has every element of unforgettable entertainment—drama—comedy—thrills—suspense—action. But back of it all is that certain something that only Barthelmess can bring you—that makes this picture different from anything you have ever seen.

Leithbridge

There is no other Leithbridge in the world. The only one is the one in the heart of the Adirondacks, where the Adirondack Park is located. The Adirondack Park is the largest park in the world, and it is the only one that is still in its original state. The Adirondack Park is a beautiful area with many lakes, mountains, and forests. It is a great place to visit for anyone who loves nature.

ing for almost 90 per cent of the total population. "The country is a study area," says the director of the Institute of Economics and Statistics, "because of the enormous diversity of its geographical features, the large number of languages spoken, the great variety of ethnic groups and the diversity of its political systems. Unfortunately, the diversity of the population has done nothing to diminish the ethnic hatreds that have developed there with some reason. The situation is very serious."

AN EARLY BANK OF MONTREAL "TOKEN"

Represented hereafter on the one side of the "Token" token, one of the earliest ever issued by the Bank. The reverse side of the token, which is a reproduction of the Bank's emblem, shows the words "BANK OF MONTREAL" and "1817".

"Trade and Agriculture" indicates the early connection of the Bank with both urban and rural life in Canada.

"Les Miserables"

Victor Hugo's Immortal Drama

Considered by the magnificent imagination of Victor Hugo, the master, this great and moving story of humanity oppressed and triumphant marks one of the greatest moral and ethical achievements. Laid in France at the time the nation was convulsed from the nightmare of horror, you will be amazed at the gripping realism with which this superb all French cast portrays the characters of this immortal literary epic.

Why do without the things you've always wanted in a more...
 Luxury... Comfort... Beauty...
 Performance... Reliability...
 Style... Chevrolet... The power and
 beauty of Chevrolet are all...
 The beauty, style and luxury of modern Fisher bodies. The comfort and easy riding of longer wheelbases, and living room interiors with more room. The power, smoothness and dependability of Chevrolet's rugged extra-duty bodies. The safety of Chevrolet's extra-duty bodies (and even economy bodies). And added refinements, such as electric windows, electric door locks, VV wheelchairs, infinitely-adjustable interior panel and many others.

Why do without ANY of these things, when you can have them... in the lowest priced in all American history! o-o-o-o-o

The improved sentiment existing among livestock breeders throughout Western Canada is reflected in the high prices received for the animals sold by auction this week in the livestock market with the Calgary Spring Show closing the past two weeks. A total of 205 bulls were disposed of for the sum of \$129,550 for an average of \$637 each, no compared with 106 bulls which sold for \$69,770 or an average of \$115.80 at the 1957 sale.

These words he said, and then
 Came unperceived;
 I saw him, and he saw me,
 Gazed on each other's face;
 And, though he said not a word,
 He felt me feel his face.
 "Tis better," said he, "that
 I should be known to thee,
 Than as a chance-brother
 With pride to meet."
 How startled to find
 Him whom I might have said
 Was dead! how glad to find
 Him still, how glad to find
 And, disconcerted, saw
 That she was dressed in habits
 Unchanged, as if he were
 These words he said, and then
 Came unperceived;

Public Approval

Six months' sales of Graham-Paige cars and engines exceeded those of any other month in eighteen years. August was established a new all-time monthly sales record. We will continue to so manufacture each motor car that Graham-Paige may retain and increase this public approval. A car is at your disposal.

*Harold B. Graham
Robert B. Graham

After observation and adoption of the Graham-Paige Motor Car, the following is the result of the test run:

1. The car is a very good car.
2. The car is a very good car.
3. The car is a very good car.

REATTUNE as a gold-plated in a package of 18 presents. A valuable appointment. Being here on a 110-inch wheelbase, and crammed with power. There are the hidden bells with great clarity. Does 73 miles an hour as easily as 24. Equipped with 61 components. You can find a "hot" but there's controlled chassis vibration. Just compare!
